About me

Hi, I am Hendrik Kaiser. With a diploma in International Media Science, I have worked for 18 years as project management consultant (www.hendrik-kaiser.de) and managed a big variety of projects in all sizes. In 2012 I discovered again my passion for Linux creating open-source home automation and more on Ubuntu and the Raspberry Pi. In 2017 I decided that I want to work again as tech specialist. I took on roles where I managed projects as well as supporting with development and DevOps tasks in parallel. Since summer 2022 I work full time as DevOps-Engineer. If you need support with any of the technologies listed below, please feel free to get in touch.

Skills

- **Commitment**

Every challenge is solvable. Once the goal is clear I bring in tenacity and work myself through until purpose and objectives are reached. Good research and finding best practices are elementary for the success of your project.

- **Teamwork**

A good teamwork is the best and strongest accelerator for a project. I have worked in a lot of teams within the last years where most followed an agile methodology. It was always a light workflow and a friendly communication which made the teamwork efficient.

- **Tools**

Within my carrier and until now I was confronted with a lot of tools for working with tech teams such as: Jira Confluence, Redmine, Gitlab, Github, Bitbucket, Visual Code, Office 365, Teams, Slack, Mindmeister and others.

Tech Experience

- Docker
- Kubernetes / Helm
- Cloudera CDP
- Ansible
- Google Cloud
- Gitlab / GitlabCI / Pipelines
- Terraform
- Packer
- Vagrant
- FreeIPA
- Ruby on Rails
- Java
- PHP / MySQL / MariaDB / MongoDB
- HTML / CSS / JS
- Wordpress
- Drupal
- Grafana
- Icinga
- CheckMK
- ... and others

Clients I worked for

03/2023 – heute

- **Helios**
 - Maintaining Helios Big Data Platform based on Cloudera CDP
 - Building an automatized data upload for FreeIPA
 - Building Gitlab Pipelines for editing Dead Letter Queues

08/2021 – 09/2022

- **MDR**
 - Migration of a MDR-Web-Crawler (Java-Application) to the Google Cloud into a Kubernetes cluster
 - Migration-support of a Maps tool for editors to publish geographical maps into the MDR CMS
 - Deployment of a small tool for editors to publish weather data into the MDR CMS.

08/2021 – 09/2022

- **ida GmbH**
 - Migration of the ida-webpage to the Google Cloud into a Kubernetes cluster

10/2017 – 10/2018

- **cbe DIGIDEN**

- Rollout of a Dev/Stage/Prod environment via Ansible for client Hansenet
- Docker orchestration, SSL Certification
- Developing Change Requests on a Google Maps based 'Hinweisplattform' for 50Hertz (RubyOnRails-Application)
- Maintaining RubyOnRails tool to book internal resources

University

04/1999 – 03/2004

University of Applied Sciences (HTW) Berlin

- Degree in International Media and Computer Science
- Main subjects: Programming, Networks, Media, Design, Business, English

Languages

German / English
